

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working in an environment that encourages the utmost integrity with empowered collaboration, combined with a unrelenting pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively utilizing principals of environmental stewardship and safety in how they do business. The business has put different programs in place in order to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are glad to share and promote this policy with a greater understanding of their efforts. They are extremely committed to preserving and improving the environment. AxleTech has an EHS program that not just protects the natural world but which even actively protects their neighbors and staff as well.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, that can include anything from construction equipment to airport ground support. They take great pride in being an innovative drive-train solutions provider as well. AxleTech specially designs axles so as to meet particular application demands. They have over one thousand different axle specs within their present offering. With over 100+ years of history and experience, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The business is well known in many commercial and military applications. They provide complete axle assemblies used for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have further details that could be seen in the "ISAS" product collection.
