

## Concrete Hoppers

Concrete Hopper - This particular attachment is a self-dumping hopper that automatically activates to unload whenever bumper release touches the side of a dumpster. As soon as unloading is completed, the hopper goes back to an upright and locked position. This particular piece of equipment is even accessible along with a cable which allows operation from the seat of the forklift so as to have the choice of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish to maintain durability.
