

Clark Forklift Parts

Clark Forklift Parts - At present, there are no less than 350,000 Clark lift trucks performing globally, and in excess of 250,000 in commission in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific components intended for 20 distinctive designs of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark features a extraordinary Parts Supply team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very amazing international support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's relentless goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the particularly economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This structure was developed to acknowledge the most successful method of production plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to upgrade the effectiveness and brilliance of their merchandise while minimizing costs. The new value engineering program combines progressive product growth and provides improved customer support and service within the industry.
